TO WHOSOEVER IT MAY CONCERN

This is to certify that **Ms. Anushka Singh** has successfully worked as a Software Development Intern at **Jagatmitra Foundation** from 01/08/2025 to 31/08/2025.

During her internship, she actively contributed to the development and deployment of the official website of the Foundation and successfully hosted it to make it live. She worked with technologies such as Node.js, TypeScript, and MongoDB, and was responsible for developing and maintaining the website to ensure that people could easily learn about the Foundation, connect with us, and contribute to our initiatives. She designed an interactive interface to represent the work of the Foundation, integrated contact, volunteer, and donation forms for direct communication with the Foundation's email, and built an admin panel for blog posting to simplify content management.

As the sole developer, she worked closely with the Foundation's team to align the website with organizational goals while demonstrating strong technical skills, responsibility, and problem-solving. Her efforts significantly enhanced the Foundation's digital presence and outreach.

We sincerely appreciate her dedication and wish her continued success in her future endeavors.

MR. GAURAV AGGARWAL
FOUNDER & CHAIRMAN
